

# Lucky Store Brand Guidelines

Reviewed: Jan 1, 2030

**Canv**Lucky Store is a neighborhood grocery storefront built around easy product discovery, clear information, and friendly service.**a Tip**

A warm, practical neighborhood grocery brand. Keep every touchpoint clear, welcoming, and useful.Lucky Store is a neighborhood grocery storefront built around easy product discovery, clear information, and friendly service. These guidelines keep its visual identity and customer communication consistent across digital and printed touchpoints.Use the current customer storefront as the source of truth for products, policies, and visual identity. Keep this guide focused on consistent presentation; no founding date or brand history is asserted here.Help shoppers discover everyday grocery products through a clear, welcoming neighborhood storefront.Make shopping feel simple, useful, and familiar. Treat this as a design aspiration, not a performance claim.

## Introduction

### Purpose

Lucky Store is a neighborhood grocery storefront built around easy product discovery, clear information, and friendly service. These guidelines keep its visual identity and customer communication consistent across digital and printed touchpoints.

### About the brand

For the introduction section, it is customary to include a quick history or overview of how the brand came to be and how it has changed over time to become what it is today.

## Our mission

Write a concise statement that defines what your brand does, who it serves, and how it delivers value today.

## Our vision

Describe the future your brand is striving to create and the impact it aspires to make long term.

---

# Logo

This section should define how the logo should be used and what versions exist.

Include the primary logo (full lockup), and secondary variations (stacked, horizontal, icon-only), along with clear space and minimum size rules.

## Primary logo

**The shape:** Expound on your emblem

**The symbol:** Explain its significance

**The style:** Describe its look

## Secondary logo or variations

**The variation:** Expound on your emblem

**The use case:** When is this preferred?

**The variation:** Expound on your emblem

**The use case:** When is this preferred?

## Logo usage

Define clear space rules and minimum size requirements to maintain legibility.

Add specific instructions here.

Add specific instructions here.

## Color

Outline your core brand color palette here. Include hex, RGB, and CMYK codes for both digital and print consistency.

### Our primary colors

List the brand's primary colors with HEX, RGB, and CMYK values.

#### Turquoise

#40cfde  
64 / 207 / 222  
71 / 6 / 0 / 12

#### Blue

#106efd  
16 / 110 / 253  
93 / 56 / 0 / 0

## Our secondary colors

Include secondary and accent colors, and explain when to use each (e.g., for backgrounds, highlights, UI).

|                 |                  |                 |                 |                 |
|-----------------|------------------|-----------------|-----------------|-----------------|
|                 |                  |                 |                 |                 |
| Teal            | Green            | Orange          | Lilac           | Blue            |
| #83e3de         | #37c563          | #ff801d         | #e171ea         | #597cff         |
| 131 / 227 / 222 | 55 / 197 / 99    | 255 / 128 / 29  | 225 / 113 / 234 | 89 / 124 / 255  |
| 42 / 0 / 2 / 11 | 72 / 0 / 50 / 23 | 0 / 50 / 89 / 0 | 4 / 52 / 0 / 8  | 65 / 51 / 0 / 0 |

## Color combinations and accessibility

Provide guidance on color combinations and accessibility contrast.

|          |          |          |          |          |

## Typesetting and Hierarchy

Define a clear type hierarchy with examples.

|           |                |       |
|-----------|----------------|-------|
| Font Name | Title          | 60 pt |
| Font Name | Heading        | 32 pt |
| Font Name | Subtitle       | 24 pt |
| Font Name | Section Header | 16 pt |
| Font Name | Subheading     | 12 pt |
| Font Name | Body           | 12 pt |
| Font Name | Quote          | 15 pt |
| Font Name | Caption        | 9 pt  |

# Voice

This section outlines how your brand sounds in writing – and how that reflects its personality.

# Aloha, Hallo, Ciao, Hola, Hello, Hej, Hal Bonjour. Kamusta. O

## Brand voice

Start by describing the brand's tone and communication style in 3–5 personality traits

### Warm

We make people feel welcome and valued.

*"Let's make something wonderful together."*

### Helpful

Use this space to explain how the brand embodies each voice trait in its writing.

*"Include a short example of copy that demonstrates this voice trait in action."*

### Playful

Keep it short, specific, and actionable.

*"Include a short example of copy that demonstrates this voice trait in action."*

## Tone variations

Use this section to guide how the brand voice adapts across different platforms and contexts. Adjust tone, formality, and language based on the audience and purpose of each channel.

| Channel | Tone | Sample Copy |
|---------|------|-------------|
|         |      |             |
|         |      |             |
|         |      |             |

# Photography

Define your brand's photographic style and what kinds of images are on brand. Cover key areas like subject matter, composition and lighting, and editing guidelines.

## General guidelines

Provide guidelines on composition, tone, lighting, and subject matter. Recommend editing treatments (e.g., color grading, filters, presets) that maintain consistency.

### People

Add specific guidelines here

### Products

Add specific guidelines here

### Places

---

## Graphics

If your brand uses illustrations or graphic elements, explain the style and usage rules here.

Cover things like:

- Line weight and shape style
- Color application and shading
- Animation or motion principles (if relevant)

---

## Icons

Define the visual style of icons in your brand.

You may include guides for:

- Stroke style (e.g., outline vs solid)
- Consistent line weights
- Icon sizes and padding
- Color rules and pairing with text
- Animation or motion principles (if relevant)

---

## Charts

Provide rules for how data should be visualized to feel consistent with your brand.

# Chart types

## Bar chart

Explain when and why to use this chart type — what kind of data it’s best for and what insights it helps reveal.

## Pie chart

Explain when and why to use this chart type — what kind of data it’s best for and what insights it helps reveal.

## Line chart

Explain when and why to use this chart type — what kind of data it’s best for and what insights it helps reveal.

# Brand applications

This final section brings all the elements together in real-world mockups and use cases.

Think of it as your "show, don't tell" section — a visual library that reinforces how to apply the brand consistently.
